Re: Annual Injection Well Fluid Level Monitoring Report

Dear Sir:

The Environmental Protection Agency (EPA) approved your plan for future use for some inactive wells which you operate in Osage County, Oklahoma. That approval requires you to conduct monitoring to assure that fluids will not move through the wells into underground sources of drinking water (USDWs) during the temporary abandonment period and that you report monitoring results to EPA annually. Submit these reports by July 31, 1987, to:

UIC Permits/Enforcement Section (6W-SE)
U.S. Environmental Protection Agency
1445 Ross Avenue
Dallas, TX 75202-2733

Attn: Mr. Gus Chavarria

A report form is enclosed for each well for which a report is now due. The data may be submitted on some other format (computer printouts, etc.). However, you must submit the same information requested on the enclosed form.

Your cooperation in this matter is appreciated. If you have questions, please contact Mr. Ronald Van Wyk in Dallas at (214) 655-7165 or the Osage UIC office in Pawhuska at (918) 287-4041.

Sincerely yours,

(for) Oscar Cabra, Jr., P.E.
Chief
Water Supply Branch (6W-S)
